

# The Instruction Manual

See how fast you can get through the level while trying to get as many coins as possible. This game is meant to be a fun little thing you can play against a friend or by yourself.

## Basic Controls

The controls in this game are very simple

---

A → left

D → right

Space → jump

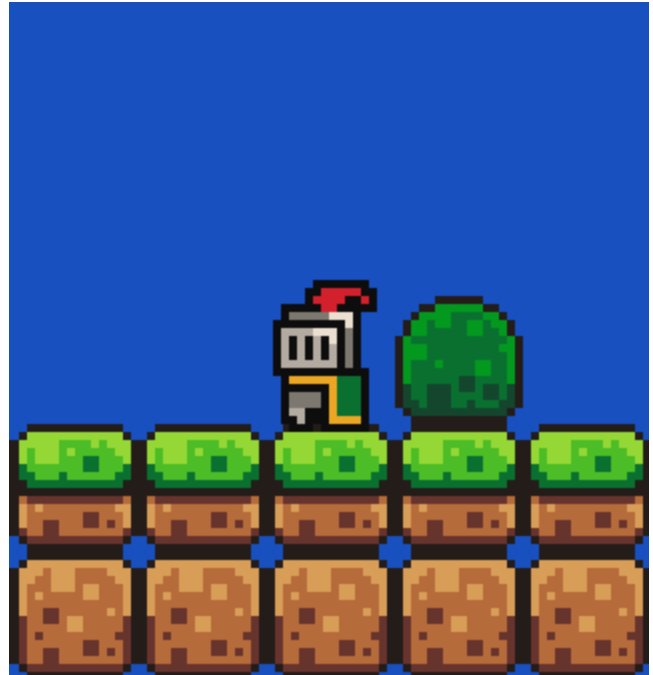

J → attack

## How Attacking Works

---

Attacking in this game can be a little tricky.

Holding down the attack button will make the knight stand still and start charging his attack. The longer you charge the attack the stronger it will be. Be careful though the knight can't move while attacking so attack thoughtfully.

## Power-up Fruit

---

Throughout the game you may find power-up fruit that will let you progress further, these fruits can give the knight new abilities. Further increasing the possibilities of what you can do. Make sure to grab them whenever you see them. There is always a quick tutorial on how to use the power up you received right where you get them so don't forget to pay attention to your surroundings
